A). September 6 B). 7 hours C). 9:20 a.m. D). T705
44. Which city is the flight leaving from?
A). Bali B). Taipei C). Indonesia D). Taiwan

B. Ramen is a puzzle. Yes, everyone knows that ramen is kind of Japanese noodle and that it first came from China. But that is about all anyone knows for certain. One part of the puzzle is how ramen came to be called ramen. The most popular idea is that it comes from the Chinese characters, *la-mian*, which means pulled noodle. But there are several other ideas, including one says the “ra” actually refers to *liu*, which was the name of a Chinese cook in Japan around 1900.

Ramen used to take a lot of effort to prepare. Then Momofuku Ando, founder of Nissin Food Products, had an idea. He thought that Japanese people needed something to eat that did not cost a lot of money and was easy to cook. This was just after World War II, and everyone was working hard. Mr. Ando came up with the idea of making the ramen almost ready to eat and putting it in a package. All the customer had to do so was put the dry ramen in a pot of hot water. A few minutes later, a delicious bowl of ramen was ready for eating.

At first, people laughed at Ando’s idea about packaged ramen, because it cost six times more than the fresh ramen sold in Japan’s ramen houses. But as soon as the packaged ramen was on the market, it proved that Ando was right. It became so popular that even today, Japanese people are still crazy about it.

45. What is the main idea of the passage?
A). People in Japan are crazy about ramen. B). Packaged ramen was invented by a Japanese.
C). Ramen first came to Japan from China. D). There are some interesting stories about ramen.
46. What does the word “puzzle” mean?
A). easy to make B). hard to understand C). good to try D). delicious to eat
47. Why did people laugh at Ando’s idea about packaged ramen?
A). It is more expensive than the fresh one. B). Boss of ramen houses refused to serve it.
C). Putting ramen in a package was new idea. D). It was made ready to eat and easy to prepare.
48. Who was Momofuku Ando?
A). A Chinese cook in Japan around 1900. B). A person who invented Japanese ramen.
C). A person who bought the first ramen from China to Japan
D). A person who found Nissin Food Products.
